Rockford, IL 61101

RE: Megan Muter  
DOB: 11/20/1976

**FILED**  
AUG 12 2019  
THOMAS G. BRUTON  
CLERK, U.S. DISTRICT COURT

Dear Judge Gettleman:

I have seen Ms. Megan Muter for six sessions of therapy. We have been using Cognitive Behavioral Therapy (CBT) techniques to explore the reasons for Ms. Muter's embezzlement of funds from her former employer, to address the issues of character and decision-making and to explore the possibility of recidivism.

Ms. Muter regrets her behavior deeply. Her life in Illinois was more expensive than she could afford and she addressed that by moving to Oregon where her cost of living is more manageable. She also has family support here.

It is highly unlikely that Ms. Muter will become a repeat offender. Her previous behavior was very much out of character for her and the consequences have made her think seriously about her crime.

I recommend that Ms. Muter continue in therapy for another six months to solidify the gains she has made.

Sincerely,

Jacqueline J. Head, Psy.D.
